

VISITING PROFESSOR LECTURE

**Dr. Timothy J Ziemlewicz:**

# HISTOTRIPSY

A LECTURE ON THE NEW, NON-INVASIVE, NON-THERMAL METHOD OF TUMOR DESTRUCTION

Started at the University of Michigan with the invention of an external ultrasound, Histotripsy is now being translated into larger models. In the #HOPE4LIVER trials, Dr. Ziemlewicz has been working with patients to treat liver tumors with Histotripsy. Started at UW Madison, this technology has now come to UChicago Medicine.

**Join us virtually on May 4th from 7-8am to learn more about Histotripsy**
